WENDELL BENSON.

HOUSE.
H. C. CHAMBERS,
F. S. RICHARDS,
J. L. RAWLINS,
ELIAS A. SMITH,
WM. HURK,
GEO. R. CUSHING.

WHO ARE
THE
FOUR BOODLERS?

A GREAT TICKET.

Isn't it a splendid ticket? It is simply superb. THE HERALD was never for a moment nervous about the delegates to the legislative convention had been chosen. They were good men and true; they were wise men also, and we knew they would do their work well. The confidence which was placed in them was not misguided, for if the two hundred gentlemen making up the convention were to sit for weeks and carefully canvass the entire city, we do not believe they could arrange a more perfect ticket. We ask our readers to look at the names and think of the gentlemen designated. Every name is that of a progressive citizen. Every name stands for a man of brains and ability. Every name indicates a man who is identified with the city, who has faith and confidence in the city, as evidenced by his investments and his labors, and who believes in Salt Lake and Utah above any other place on the globe. Every name points to a man who believes in the people, who believes in Democracy, who believes in good laws and in obedience to them, who believes in progress along proper lines, and who believes in the political movement lately inaugurated in this territory, which has for its object the lifting of the community from the rut in which it has been wallowing and placing it on the broad highway leading to greatness.

THE HERALD as the organ of the Democracy, is proud of that ticket; is so proud of it that we invite voters of any and every party to canvass the list name by name, to examine the record and say if there is any man among the nominees who will not be a good legislator; if there is one to whom the making of the laws cannot be safely intrusted; if there is one who has ever been a demagogue or who is in the least degree a politician in the offensive sense of the term.

The ticket is such a superb affair in its personnel and the platform upon which it stands is so grand, that it seems to us that victory is certain. It seems to us that all the people who love Salt Lake and have the best interests of the Utah community at heart, will eagerly support the Democratic ticket, and the voters will send to the legislature from this district a delegation which will command the respect of the assembly regardless of party.

THE NEW YORK TIMES cleverly scores one on the Chicago Inter-Ocean, which in assumed indignation says, "If there be a barbed-wire trust it should be smashed instantly," and remarks that "the attempt to form a trust is deserving of severe censure." The Times mentions that the barbed-wire trust has been in existence several months, and an account of its formation was published in the Inter-Ocean at the time.

WE UNDERSTAND Mr. HORN says that in an \$18,000 steam engine there are raw materials valued at \$25.00, and American labor valued at \$17,975.00. If Mr. Horn really

made such a statement will be kindly informed as whether the manufacturer's profit was classed as labor, and if so, what it was! Or will he say that there is no profit in the business? His statement is not quite complete without that item accounted for.

Be sure you attend the great Democratic rally in the Exposition building on Friday.

THE FALL OF THE BASTILLE.

Of all the glorious anniversaries in French history, including the establishment of the third republic, not one is so fervently commemorated by the French people as the fall of the Bastille, on the 14th of July, 1789. This date was the most gruesome prison that political enemies entered. The inhuman treatment to which the inmates were subjected has few parallels in the history of penal cruelty. Put there without accusation or trial, on a simple letter of cachet, allowed no communication with friends, their final fate depended on the humor of a despot. Some of the noblest sons of France languished or perished there, among them Marshal RICHELIEU, VOLTAIRE and "the Man in the Iron Mask."

Of course the storming of the bastille was simply an incident in a turbulent time, just as the Boston tea party was but an incident in the struggle for American liberty, but as an embodiment of the horror which was abolished with it, the event of the 14th of July, 1789, marks a climax in the history of the country.

In the place where the last stronghold of tyranny then stood there was erected in memory of the patriots of 1789 and 1830 "the column of July," and as President CAIROU, at the head of the government, participated in the celebration of the fall of the bastille, he must have contemplated the marvelous changes which a single century has wrought not only in France but in the world.

THE LIBERALS of Ogden threaten to strand the Republican party there by holding a Liberal convention and calling their straying members back into the fold.

THE CAMPAIGN will be short and let us hope that it will not be noisy and peace-disturbing. It is education and not red fire and bass drums which will win the voters.

THE WORKINGMAN LEFT OUT.

Congressman MILLS, the great apostle of tariff reform and low taxes, delivered a speech at Creston, Iowa, last August, in which he illustrated in a most convincing manner how all of the poorer classes of the American people are being plundered by the robber tariff for the benefit of the protected few. The entire speech should be in the hands of every citizen of Utah at this time, as it would restrain many from casting their lot with the party which is responsible for adding an average of 50 per cent. to the price of all articles which are necessary to the existence and comfort of the people. But there is one part of the speech which is especially important to the workingman at this time when they are being told that the high duties collected at our ports are imposed for the purpose of protecting American labor. Mr. MILLS says that he has never been able to find out where the workingman comes into the combination. The protection is to the article the workman produces, not to the labor. The article belongs to his employer, the labor to him. The product is protected. The labor is in competition with the whole world. The workman sells his labor in a free trade market, the employer in a protected market. There is a guilt between his employer's pocket and his that protection cannot span. There is a duty of seventy-five cents on a ton of bituminous coal, but the American workman gets forty, fifty or sixty cents per ton, just as the workman does for anthracite coal that is free. The employer gets the seventy-five cents, and not one cent of it does he give to the workman.

There is a duty of \$6.75 on a ton of pig iron, but the workman only gets from \$1.35 to \$1.50 per ton, just what he would get without the tariff. The duty is on the iron, and the owner gets it. There is a duty of \$17 on a ton of steel rails, and the workman gets from \$1.50 to \$2 per ton, just what he would get without the tariff. The duty is on the steel rails, and they belong to the employer, and he receives it and keeps it. Mr. MILLS quoted from the official reports the selling prices of different articles of manufacture and the labor cost as given by the manufacturer, to which he added the tariff duty to protect the labor in each. The workingman will see by a reference to the table how preposterous is the claim that the tariff is for the protection of the difference in the cost of labor here and in other countries. He will also see that the workman invariably gets left, the tariff being for the benefit of the employer:

	Selling Price.	Labor Cost.	Profit for Employer.
